SiMPli scada
Scada for Rural Water

The Best SCADA for Rural Water

UPGRADE YOUR SCADA WITHOUT UPGRADING YOUR INFRASTRUCTURE

WHAT THIS MEANS FOR YOU

- ✔ No servers, VPNs, or software licensing
- ✔ No third party software or hardware
- ✔ Quick & easy setup
- ✔ Dedicated support team with real people
- ✔ Monitor sensors and assets without the hassle of a typical scada system

KEY FEATURES

End-to-end Cloud Solution
Our secure, end-to-end system allows you to connect any controller and most protocols, from anywhere without third party devices.

Drag & Drop Customization
Configure and tailor your data and interfaces to meet your needs without the hassle of typical SCADA systems.

Web & Mobile Application
Monitor, analyze, control, and receive alerts on your assets securely anywhere on the web or with our mobile app.

Real Time Reports & Alerts
Create robust reports to share with your teams. Receive notifications and acknowledge alerts.
